Subject: Marvin just a Wilcox FYI
Date: Tuesday, November 04, 2014 3:20:51 PM

Mr. Stephen Lane, a resident of Bristow, and one of the residents living on or near the site called asking about Wilcox.

He has called several times in the past. Concerned about black stuff that maybe in his yard ?????

He asked again the name of the five companies that received the SNL. I gave him the names of the companies that received the SNL. (That letter is out, public)

Just the names. He also asked for the name/tel of the EPA attorney and I gave him your name and #.

Todd Downham, the Oklahoma Dept of Environmental Quality RPM has talk to him several times. In the past he asked about buy outs and he explained that we were too early in the process to be thinking about that at this time, that first we need to investigate and find out how to remediate. (He may be thinking about what has been done in Tar Creek and I am not familiar with that site.)

I have tried to explain him that this is a slow process. Todd have done the same.

Also FYI, Todd/ODEQ is conducting quarterly sampling of the nearby houses using private wells for drinking water. The water is safe to drink, meets MCLs, Todd/ODEQ has sent copy of the results to the well owners, and will continue monitoring the ground water.

Anyway, FYI in case he calls you.
